Corporate Quality Manager

Subject: NHBB CERTIFIED RELUBRICATION FACILITY

It is my pleasure to inform you that Mechatronics Inc. (National Precision Bearing Group) is hereby re-approved as an "NHBB Certified Re-Lubrication Facility". This designation allows the holder to wash and lubricate bearing assemblies, and includes the removal and replacement of removable bearing shields, and seals, provided that all replacement components are furnished by NHBB. Full bearing and component traceability must be maintained at all times.

This authorization does not include bearings with closures considered to be non-removable, or bearings requiring vacuum impregnation of porous retainers. Continuation of this authorization requires annual reaffirmation of compliance.

Please do not hesitate to contact me if we can be of further assistance.

Best regards,

Julie A. Conner
